

Biography

James Walters

Jim Walters is currently Vice President, International Affairs, at the Air-Conditioning, Heating, and Refrigeration Institute (AHRI) in Arlington, VA (USA) where he is responsible for the global aspects of AHRI's work in standardization, certification, and advocacy. At AHRI he manages AHRI's International Committee and the Secretariat for ICARHMA, the International Council of Air-Conditioning, Refrigeration, and Heating Manufacturers' Association.

In addition to his being a member of various committees of the American National Standards Institute (ANSI), the United States' member body of ISO, he has participated in both U.S. Technical Advisory Groups for ISO and the IEC (SC 61D) in the fields of petroleum as well as HVACR. He is past President of the Center for Global Standards Analysis in Washington, D.C. and the Standards Engineering Society.

Jim was educated in the United States at Roanoke College, the George Washington University, the University of Virginia, and Stanford University.
